

Can you spot the loyal American?

Hint: It's a trick question

VOTE LIBERAL, PROTECT FREEDOM

The news is abuzz. Russia did, in fact, influence our elections. Putin is not our friend even though he seems to be our president's BFF. There also seems to be a concerted effort to suppress the student vote and political voice on our campus' nationwide. Some political forces are afraid of an educated electorate.

Knowledge makes manipulation harder.

Do **all things necessary** to register to vote or to confirm your current registration is intact. Vote by mail if possible. Bring your friends to the polls. Spread the word.

"Insanity defined: doing the same thing over and over while expecting different results" Don't let the same authoritarian politicians continue to trash our democracy in the name of Corporate profits and foreign influence.
